

TRANSFORMING  
QUALITY INTO  
REALITY

 AMSTER®

## About Amster

Amster Microcell was established in 2018 to manufacture superior quality of Spray dried Microcrystalline Cellulose Powder, Croscarmellose Sodium, Magnesium Stearate and Sodium Starch Glycolate with a team of highly qualified and experienced in the fields of Pharmaceutical Excipients. The company is known for its great expertise in manufacturing and supplying of excipients and its derivative products. Our expertise comes from the long experience that we have in the industry and the advanced technologies that we employ in our facilities. Our main motto is to provide high quality at reasonable rate.

The Plant is constructed with fully automated process from start to finish to avoid human handling and to avoid the risk of production contamination.

## Vision

Our vision to make Amster Microcell, a leading pharmaceutical company in excipients and its derivative products across the globe, and to become the most, admirable leader in the globe by providing qualitative, core leadership and a customer-first approach.

## Mission

Our mission is to provide total customer satisfaction and achieve leadership in chosen markets, products, and services across the globe, through excellence in technology and using high-quality raw materials and best Research & Development in-house. We take social responsibility of delivering the highest standard products to all segments of society without compromising on our core values of integrity, good ethics, and commitment.
